Four Generations,
One Family Commitment

Family owned and operated since 1975, inSPAration pioneered aromatherapy for the pool, spa and hydrotherapy industries. We develop our proprietary blends in Southern California and take pride in providing our partners with exceptional products, quality and service. We continue to create new and exciting aromatherapy with one goal in mind: to deliver the ultimate pool, spa and bath experience for every user.

Tested by DuPont and Aristech Chemical, our proprietary formulations are completely water soluble and safe for pools, spas, baths, filters and equipment. They will not change the color of the water or affect water chemistry. Our

aromatherapy blends are also enriched with moisturizers, vitamins and natural extracts, creating a relaxing and truly unique experience.

Today, four generations of our family are involved in the day-to-day operations of inSPAration. As our family continues to grow, you can be confident that the company will remain in good hands for generations to come. Thank you for being part of our family. We look forward to continuing to grow together.

inSPAration® SPA AND BATH AROMATHERAPY

Natural Aloe Vera Extract and Vitamins E & C have been added to our proprietary Water Soluble blend. The liquids are available in our classic 9oz Bottles and our famous 1/2oz Pillow Packets.

Wellness™

Complete your HydroTherapies Wellness experience with matching Aromatherapy Crystals. Each blend combines Epsom Salt, also known as Magnesium Sulfate, with Hyaluronic Acid, Natural Aloe Vera Extract and Vitamins E and C to help soothe tired muscles, moisturize the skin and enhance every soak.

Hyaluronic Acid is a powerful moisture-attracting molecule naturally found in the skin. It helps improve moisture retention for lasting hydration, making it an ideal moisturizing addition to enhance any hydrotherapy experience.

SPA NATURALS

NATURAL DEAD SEA SALT AROMATHERAPY

Sourced directly from the southern Dead Sea in Israel, our natural salt blend contains 10 times more minerals than traditional bath crystals. These naturally occurring minerals help cleanse, detoxify and restore the body, creating a naturally rejuvenating hydrotherapy experience.
